### **DETAILED ACTION**

Claims 1-6 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter as set forth in the previous office action and below in response to applicant's remarks.

#### ***Response to Arguments***

Applicant's arguments filed have been fully considered but they are not persuasive.

Applicant's response to the rejection under 101 argues in effect that his claims are patentable if the prior art is patentable. However, the question of patentability is in a constant state of flux and each patent is granted based on separate evidence and unique fact. As such, the mere existence of a previous patent having similar subject matter cannot be used to overcome or support patentability. The standards of law and reasoning in force today and being applied to the instant claims is set forth in the previous office action and the ground for rejection under 101 remains.

#### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. An Evaluation of Ranking Methods for Multiple Incomplete Round-Robin Tournaments, UPA Manual of Tournament Formats, Tournament Rules, DIGLIT '02 and Pairwise Ranking show tournament methods.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
